TERRIFIC FORCE. The entire causations.

The entire causations are seconds, but in that time the surrounding property was ewept as if a small volcano had broken forth in its midst. Every house within 20 yards collapsed. Trees were blown down, the grass within a hundred yards mowed as if by a lawn mower, while bricks from the two magazines were hurled far across the river and all over the neighborhood.

For several minutes afterwards the nir was completely filled with smoke and dust, and illuminated by the glare from the already burning houses.

The work of rescue began at once, but in many cases the flames had already gained full sway over the crimpled ruins and several persons were burned to death before the debris which covered them could be removed.

gained full sway over the crumpled ruins and several persons were burned to death before the debris which covered them could be removed.

The property is situated just over the Lowell line department did most of the work in caring for the wounded. Before a stream of water was started from the engine, the hose from all the wagons was taken out and the bodies of the wounded were placed in the wagons and hurried to the hospital. Ambulances soon appeared on the scene and all sorts of vehicles were pressed into the service. Nearly forty persons were taken to the two hospitals within half an hour, while many more whose injuries were slight had their wounds dressed and remained on the scene, where they ansisted in caring for the less fortunate.

SHOOK THE CITY.

The explosion shock the city, and within half an hour there were at least five thousand people on the scene of the catastrophe. The crowd so badly hindered the work of caring for the wounded that the Mayor sent out a militia call. Three companies responded and three hours later had thrown a cordon of men around the district and cleared the place of every one except those immediately engaged in quenching the flames and searching for victims.

Two hundred yards further down the river from the second magazine the firemen suddenly came across the bodies of four little boys, who were about to have a swim. A fifth member of the party was in the river when the explosion occurred, and escaped without higury. Apparently the force from this second magazine was expended in two directions, north and south. On the nortic it completely demolished the house of William Riegs, about fifty yards saway, almost burying Mrs. Riegs, and badly injuring her little son. Mrs. Rigs died before being taken to the hospital.

HEAD BLOWN OFF.

On the other side of the magazine was a grove of trees, through which the explosion tore a path fifty feet wide for a distance of nearly three hundred yards. The four little boys were caught in the center of this path, and three were instantly killed,

Most of the property destroyed consisted of small buildings constructed of wood, and at comparatively small cost. The property loss, therefore, will not

chairman of the Test Farm Committee, submitted a report as to the work of the department's experimental station at Saxes. The report showed that the management of the farm has been productive of good results, and that with the place in better condition than it has ever been, a great deal may be expected in the future. The farm sustained quite a loss by the burning of the stable last Sunday week, when four mules and a horse perished in the flames, though every effort was made to save them. The blaze was caused by a stroke of lightning.

TEST FARM COMMITTEE.

Proceeding under a plan of reorganization, the following Test Farm Committee was appointed by President Beverley; Messrs. Barker, Ruffin and Cowan.

The plan of reorganization provided for the creation of an executive committee, to which body most important duties are allotted. The committee was chosen by ballot, and is as follows: Messrs. Heater, Eggleborn and Cowan, Dr. Me-Bryde and President Beverley, the latter being named by virtue of his office. Commissioner Kolner submitted his financial statement for the quarter, and the accounts and vouchers were examined by the Finance Committee, which, through its chairman, Mr. Ruffin, reported that every expenditure was supported by the proper voucher, and that the accounts and earliers work. He said that the farmers throughout the State were Koiner made a most satisfactory report of the last quarter's work. He said that the farmers throughout the State were depending upon the department more and more every day, and he was much gratified that such was the case.

BABIES IN A TRAP

Three Little Girls Had Narrow Escape from Suffocation.

Three little daughters of Mr. Victor L Floyd, whose home is out on the Brook Road, were caught in a singular trap Tuesday. The children were playing in Tuesday. The children were playing in the yard and finding a large fee-box where meats had been kept, they thought it would be an excellent place to hide. So they pulled the lid down and as they were wee children, the oldest just ten, they were unable to lift the top when they wanted to get out. The little people were in a veritable coffin and when it became oppressive they began to cry. When their strength was gone they only moaned and were heard by a colared man, who lifted the lid to ride the baby girls unconscious. By the roic measures they were resuscitated and are now all right.

There were stormy agenes in the Diet this afternoon when the premier, Count Hedervary, rose to commence the debate on the indemnity bill. The obstructionists stood up and the chamber resounded with deriening shouts, the banging of desk lids and insults hurled at the premier from the opposition benefies. The sitting was suspended, but the scenes were repeated on its resumption, and ultimately, being unable to obtain a hearing, the premier handed the clerk of the house a written motion, moving the reading of the bill. When the obstructionists became aware of this action a couple of members of the Kossuth party stormed the presidential tribune, snatched the paper from the clerk's hands, and tore it to ploces. The tribune was soon filled with shouting deputies, and amidst the tumult the session was again suspended.

It is said that two duels have been arranged between deputies as an outcome of the scenes in the Diet to-day.

BERLIN, July 29.—The German Wireless Telegraph Company has Issued a statement regarding Signor Marconi's utterances on the possibility of the German Company intercepting Marconi messages in England. The German Company says that all that is necessary is to efect a strong station on the shores of the Baltic or the North Sea, with attuned wires to Marconi's station at Poldhu, Cornwall, and it would be impossible for Marconi to receive trans-Atlantic messages. The statement concludes:

"Such procedure for fighting the world monopoly aimed at by Marconi could hardly be called 'chicanery,' but more properly self-defense."

DAKOTA DIVORCES

#### Their Validity in England Raised in a Case Pending.

Case Pending.

(By Associated Prezs.)

LONDON, July 29.—The validity of Dakota divorces in England was again raised to-day before the president of the divorce ocourt, Sir Francis Jeune, in the suit for divorce brought by D. S. Constandinidiagainst his wife, who is a daughter of Stephen Ralli, a member of the firm of Ralli Brothers, well known in New York, as well as in London. The lusband charged his wife with bigamously marrying Dr. Lance, the family physician. Mr. Constandinidi obtained a judicial separation from his wife in 1859.

Judge Lawson Walton, counsel for the petitioner, explained the subsequent proceedings as follows:

"This delicately nurtured lady of Beigravia went to a wild district of the earth, emigrated to the half settled State of Dakota, became an American citizen, stayed six months there, fraudulently obtained a so-called divorce, and married the co-respondent there, thus using the lax Dakota laws for her own nurpose,

"This," continued Mr. Walton, "was fraud on civilized jurisprudence."

The jury found the respondent and corespondent guilty of adultery, awarded \$125.09 damages against Dr. Lance, and also found the petitioner guilty of the center-charge of adultery. His petition, therefore, was dismissed, and argument on until to-morrow.

Legislature was in session. TEMPERANCE SENTIMENT. Interest was a very strong temperance sentiment in Virginia before the enactment of the Mann law. I was in the town of Temperanceville for a short time yesterday. But since the new law went into effect the surprising discovery has been made that many "temperance" men are not in favor of closing the saloons. This fact appears to have been known to the liquor men, but the leaders of temperance sentiment in the county do not hesitate to express surprise that so many people who have stood with them heretofore have far broken away latterly as to sign petitions for the sale of liquor in their election precinct.

But the liquor men are not expressing any surprise. In several communities the applicants for license carried their petitions for license cannot the voters of their petitions for license cannot the voters of their petitions for a majority of the voters in each case. And in each case license was grant.

I think he was mistaken, I think, from what I have been told by a number of reliable men, that many church members have signed petitions for whiskey license, but there can be no doubt that in Accomac, as in all other countries of Virginia, the ministers and their flocks, are sincerely opposed to the sale of whiskey.

FRIENDS OF THE LAW.

But I think there is good reason for saying that the people of Accomac country, who are really friendly to the Mann law—the real temperance people—are taking little part in the fight, one way or other in the fight, one of the Mann law.
